

PORTALnet enables customers, employees, partners and suppliers to seamlessly access and control, from their portal home page, critical business information locked in enterprise applications.

A part of Sierra Atlantic's Application Networks[®] suite, PORTALnet is a set of pre-built portlets to provide visual integration of enterprise applications from Oracle, PeopleSoft, SAP and Siebel into standard portal products.

PORTALnet deploys the pre-built portlets. Requests from these portlets are passed through the PORTALnet engine to enterprise applications using standard APIs; the responses from the applications are transformed into XML, and pre-packaged XSL templates are applied to render the resulting content as HTML in the portlets. The portlets include:

- | | | | |
|-------------------|--------------------|-----------------------|---------------------|
| o Accounts | o Invoices | o Activities | o Product Inventory |
| o Agreements | o Projects | o Assets | o Promotions |
| o ATP | o Purchase Orders | o Currencies | o Quotes |
| o Contacts | o Repair Status | o Exchange Rates | o RMAs |
| o Document Lists | o Sales Orders | o General Ledger | o Service Orders |
| o Expense Reports | o Service Requests | o Inventory Locations | o Solutions |
| o Inspections | o Supplier Lists | o Opportunities | o Vendors |

Sierra Atlantic's
PORTALnet integrates
customers, employees
and partners/suppliers
across the extended
enterprise

Product Features

- Pre-defined portlets for leading enterprise applications
- Rapidly deployable and feature rich portlets
- Portal single sign-on extended to enterprise applications
- Ability to drill down to native enterprise applications' user interface
- Portal-compliant architecture
- Personalization features such as sorting, rearrange columns and number of rows in portlets
- Pre-built transforms for portlets
- Ease of upgrade process
- Robust exception handling
- Use of XML and XSLT industry standards

Product Benefits

- Dramatically lower cost, implementation time and project risk
- Improved access to enterprise applications, making it easy for portal users to access and enter information from any location, on any computer.
- Increased ROI on your enterprise applications by broadening the audience for enterprise information to include customers, suppliers, partners and employees who may not use enterprise applications every day.
- Increased productivity by combining information from multiple enterprise applications on the same web page.
- Longer system life with lower cost of ownership through upgradeable integration

PORTALnet supports

Enterprise Applications:

- Oracle E-Business Suite R11i
- PeopleSoft Enterprise 8.x
- SAP R/3 4.6C, 4.7
- Siebel 7, 7.5

Portal Platforms:

- BEA Weblogic Portal
- Oracle E-Business Suite R11i
- PeopleSoft Enterprise Portal

The PORTALnet license includes

- Integration software
- User documentation

Sierra Atlantic also offers

- Onsite installation, setup, configuration and training (separately priced)
- Annual product maintenance and support (separately priced)

Product Availability & Pricing

PORTALnet is available from September 2002. For the latest information on product availability and pricing, or a free download of an evaluation copy, please check our web site: <http://www.SierraAtlantic.com/GetPortalNet>

Sierra Atlantic's Application Networks

Application Networks® are pre-packaged, configurable business process integration solutions that automate business processes spanning best-of-breed packaged enterprise applications for improved customer service, operational efficiencies, and competitive advantage. These innovative solutions leverage our domain expertise, deep enterprise applications knowledge and extensive integration capability. Sierra Atlantic Application Networks enable organizations to realize the substantial benefits of intra- and inter-enterprise, cross-application integration at dramatically reduced cost, risk and deployment time.

Sierra Atlantic currently offers the following Application Networks integrating business processes among Agile, Oracle, PeopleSoft and SAP:

- ◆ **Customer Relationship Management Network (CRMnet)**
- ◆ **ECO Lens**
- ◆ **Enterprise Services Automation Network (ESAnet)**
- ◆ **Human Capital Management Network (HCMnet)**
- ◆ **Portal Network (PORTALnet)**
- ◆ **Strategic Relationship Management Network (SRMnet)**
- ◆ **Supply Chain Management Network (SCMnet)**

Each Application Network includes:

- ◆ **Pre-built business process flows** derived from industry best practices
- ◆ **Canonical object library** (using XML – OAG/RosettaNet/PDX formats)
- ◆ **Pre-built transformation maps** (using XSLT)
- ◆ **Object cross-reference repository, domain value maps**
- ◆ **Web services support**
- ◆ **GUI-based business rules configurator**
- ◆ **A comprehensive deployment guide and a technical reference manual**
- ◆ **Packaged services offerings for fit/gap analysis and standard deployment**
- ◆ **Sierra Atlantic product support, maintenance and upgrades leading to lower total cost of ownership**

About Sierra Atlantic

Sierra Atlantic is a leader in offshoring enterprise applications, helping our customers optimize their investments in Oracle, PeopleSoft, SAP and Siebel. With expertise derived from deep R&D relationships with enterprise software leaders, we offer complete lifecycle application management solutions -- strategy, implementation, integration, upgrade and support -- using our NShore™ methodology. We integrate these point solutions into Application Networks® that enable seamless business processes within and outside the enterprise. With over 300 highly satisfied customers since 1993, Sierra Atlantic is headquartered in Silicon Valley with offices in Chicago, New York, London, India, Malaysia and Singapore.
